

GUS VALLEJO FOR HEALTH SERVICE BOARD

After a 25-year career in support of the San Francisco Employees Retirement System (SFERS) as a Principal Business Systems Analyst, I retired recently.

During my tenure as a proud civil servant, I held various leadership positions with IFPTE Local 21, including IT Chapter President, San Francisco Regional Vice President, and Local President for six years.

My experience in both labor activism and business analytics makes me uniquely qualified to represent the interests of active and retired members, as well as their beneficiaries, on the Health Services Board.

I am a proud son of San Francisco and have been engaged in supporting our communities through activism through all my adult life.

If elected, I am committed to three goals:

- **PROTECT OUR HARD-WON BENEFITS:** I pledge to safeguard our existing health benefits and advocate for policies that further enhance them.
- **INCREASE MEMBER ENGAGEMENT:** I will actively seek opportunities to increase member participation, ensuring all voices are heard and valued.
- **ENSURE COMPREHENSIVE, COST-EFFECTIVE SERVICES:** I pledge to maintain the high quality of our services while exploring innovative approaches to ensure cost-effective solutions that meet the diverse needs of all members.

I am honored to be endorsed by current **HSS Board member- Claire Zvanski, Protect our Benefits (POB), Retired Employees of the City & County of San Francisco (RECCSF), POB President Fred Sanchez, RECCSF President John ‘Skee’ Toastanoski, Past Local 21 President Lois Scott.**

Representation through Activism...
